

690-2700MHz Omni Antenna

Telecommunication Technology & Engineering Accessories

Rev.V1.1

Model: TSBF28-4G

2G/3G/WLAN/4G LTE Outdoor Antenna

The model TSBF28-4G is a full band, high gain, good performance, economically priced antenna suited for use in the bands 698-2700MHz.

Applications

Outdoor Signal Coverage DAS System 2G/3G/WLAN/4G LTE Systems
Outdoor Cellular Communication

Features

- Good Appearance
- Economically Priced
- Durable, Corrosion Resistance
- Full Day for Working, Waterproof
- Strong Anti-Interference
- High Gain, Low VSWR

Mounting: Stainless Steel Bracket (Included)

Specifications

Frequency: 698-2700MHz

Antenna Size: 250mm

Connector: N-Female

Color: Black or White

Radome Materials: ABS

Radiation Pattern: Omni Directional

VSWR: ≤ 1.5

Gain: 13dBi

Impedance: 50 Ohm

Reflector Material: Copper

Operating Temperature: $-40 \sim 80^{\circ}\text{C}$

Polarization: Vertical

Warranty

2 years (Please refer to Tone Spread Terms & Conditions)

Packaging

Cardboard Box, one antenna per box

Note: The picture is only for reference; please make the object as the standard
